Combating the use of counterfeit US dollars Notes

The National Bank of Cambodia is honored to inform the banks and financial institutions and the public that in addition to the circulation of US dollar notes in Cambodia, counterfeit US dollar notes are also circulating. In order to contribute to combating the circulation of counterfeit US dollars notes and at the request of the US Secret Service, the National Bank of Cambodia propose:

1. The banks and financial institutions confiscate counterfeit US dollars notes from customers without compensation and send to the US Secret Service with the report as attached in the appendix to further the investigations.
2. The banks and financial institutions keep information about the identities of customers who circulate counterfeit US dollars notes and provide this information to the National Bank of Cambodia, and
3. The public must be very careful and thoroughly examine before accepting the US dollars notes and in case of suspicion that the US dollar notes are counterfeit, please provide information to the National Bank of Cambodia.

Meanwhile, the National Bank of Cambodia encourage the banks and financial institutions to introduce their customers on how to identify genius US dollars notes to participate in the prevention of counterfeit US dollars notes.

As mentioned above, all banking and financial institutions and the public shall understand and cooperate with the spirit of responsibility and efficiency.

By the order. Governor
Director General of Supervision
